100%OF STUDENTS ARE
ASSIGNED ADVISORS

CALS believes diversity is a source of strength, creativity and innovation for campus, and we value and respect what each person brings to the table, including alumni, faculty, staff and students from historically under-represented groups.

CALS Alumni are Growing the Future

- 91% of CALS respondents agree/strongly agree that UW–Madison prepared them for the next step in their career path.**
- Graduates commonly find jobs with leading organizations in health care, biotechnology, software, food manufacturing and government agencies.***
- Many CALS students pursue a graduate or professional degree, including medical school, veterinary medicine, dentistry and Ph.D. programs in the sciences and social studies.**
